

Club Championship 2018 Race Calendar (Dec 2017 to May 2018)

Dear Club Members,

The Club Championship 2018 calendar for the first 6-month period is provided in the table below. From beginners to more experienced endurance runners, there is something for everyone with plenty of options to choose. If you require advice putting a running program together for 2018 please do not hesitate to contact one of the Team Captains listed below. Together, with one of the clubs experienced Coaches we can help you achieve your running goal, whether it's to compete in your first 5km race or for those who want to experience the joy crossing the finish in your first marathon, we're here to help!

The calendar includes several 5km events throughout the year. We have also included at least one 10km per calendar month, a half marathon in every 3-month period and one marathon during the year. There is a good mix of terrain including road and for those who like to get dirty, we've listed some excellent trail events too. If you haven't tried one of these off-road events before, why not make this year the year you give it a go!

To help you plan, each event distance has been colour coded so you can see at a glance what's available.

For the first time ever, we have included a **My Run Log**. This great idea will help you monitor your progress during the year by providing space to record your race time, position and gear for each event. We also provide space to add any notes about the event which might be useful in the future.

All events will be entered into GroupSpaces calendar in the coming weeks ahead, where more details about each event will be published, including information about any arranged transport (subject to demand).

We really hope you enjoy planning your run events, it's a great idea if you can find a running buddy to share in the fun and even more when you cross the finish line together!

Judith Rodwell & Sean Williams
Teesdale AC
